Model Code Adoptions and Amendments

The following model codes and amendments have been adopted by Storey County and are now in ordinance. You will want to submit plans using these adopted model codes.

- A. The 2018 International Building Code (IBC)
- B. The 2018 International Residential Code (IRC)
- C. The 2018 International Existing Building Code (IEBC)
- D. The 2018 International Energy Conservation Code (IECC)
- E. The 2018 International Fuel Gas Code (IFGC)
- F. The 2018 International Mechanical Code (IMC)
- G. The 2017 National Electric Code (NEC)
- H. The 2018 Uniform Mechanical Code (UMC)
- I. The 2018 Uniform Plumbing Code (UPC)
- J. The 2018 International Swimming Pool and Spa Code (ISPSC)
- K. The 2018 Northern Nevada Amendments published by Northern Nevada Chapter of the International Code Council at
<https://www.storeycounty.org/DocumentCenter/View/5982> (Building)
- L. The 2018 International Fire Code (IFC)
<https://www.storeycounty.org/DocumentCenter/View/5723> (Fire)
- M. The 2018 International Wildland Urban Interface Code (IWUI), with the exception of Section 602 Residential Fire Sprinkler requirements.
- N. NFPA's as listed in chapter 80 of the IFC or most current edition of.
- O. Storey County Fire Code Amendments (Found on our website, Storeyfire.org)

NOTE: Where conflicts occur between the codes referenced above, the amendments will apply.

Submitting a project to Storey County Fire

Please follow these steps for project submittal:

1. Prepare all plans and fill out a completed Storey County Fire permit application, including Address and APN and signature.

- (See Storey County Fire Permit Application on Page 7. For assistance on APNs, contact the Storey County Planning Department)

- Plans must be designed and stamped by a Nevada licensed contractor.

2. When the application and plans are ready, you can submit them together via e-mail to plans@storeycounty.org.

- We do not accept external links to download plans. Please submit plans via PDF. Pictures, links and zipped folders will not be accepted.

- The address must be in the subject line of your email.

- We need the contractor's information to proceed with the application. Contractor may not be noted as "TBD".

3. Once the application and plans are received, the project will be placed in our plans review queue.

- Turnaround time for plans review is typically within 30 days.

- As soon as plans are reviewed, you will hear from us again via e-mail.

4. Once plans are approved, an invoice including a fire permit fee and fire plans review fee will be sent to the e-mail listed on the application.

- Please be sure anyone who needs communication regarding your project is listed on your application.

- (See Storey County Fire Fees Information on Pages 8-11 for fees information)

5. When the invoice has been paid, the stamped plans will be released back to you with the granted permit.

Please contact DL_fireprevention@storeycounty.org

or call (775) 847-0954 with any questions.

Storey County Fire Plan Review Fees

When plans are required to be submitted per NRS 477.750 there shall be a fire plan review fee charged.

Fire Plan Reviews are charged in accordance with the table below as taken from Resolution #08-269. This fee covers the initial cost of submittal and up to one additional resubmittal. Hourly fees will be charged for resubmittals past the first.

The fee for each review shall be based on valuation of the project as adopted by the Storey County Board of Commissioners and Storey County Board of Fire Commissioners within Storey County Ordinance #08-269. The valuation used for calculating construction permits will include the total value of all construction work for which the review/permit is issued, as well as all finish work, painting, roofing, electrical, plumbing, heating, air conditioning, elevators, fire extinguishing systems, and other permanent equipment.

Fire Plan Review Fee Schedule:

Up to \$15k is \$88/hr - min of 2hrs \$176

\$15,001.00	\$16,000.00	\$190.72
\$16,001.00	\$17,000.00	\$199.31

Storey County Fire Permit Revision/ As Builds Process & Guidelines

Revisions: Significant changes to previously submitted and approved construction documents and/or plans.

- No new construction permit application required. Please submit revised plans to plans@storeycounty.org for review and approval. Revision submittal shall have the project name and issued Storey County Fire permit number on submittal. Revision submittal (alone is submitted) it shall have a cover page with all required items clearly identifying the project and project scope. Revised plans shall depict the existing layout /work as well as proposed work with a delta symbol, letter or number and be clouded and clearly identified in red ink with corresponding delta symbol. If a complete / entire plan submittal is resubmitted all revisions shall be clouded in red ink with corresponding delta symbol.
- **1st revisions** are free of charge, so long as there are no added costs to project.
- **Fees:** If a code plan review (beyond 2nd review) is required for any given project, a fee will be charged at the rate of eighty-eight dollars (\$88.00) per hour or any fraction thereof. *Ordinance #08-269*
- Revisions that result in a valuation increase will be required to be submitted as a new permit.

Minor changes / Green lines: Minor deviations from original plan submittal, at the inspector's discretion, may be approved in the field.

- Deviations shall be noted, dated, and signed in the field by said inspector. Notes shall be documented, dated, and signed only on the stamped, approved set of field plans. Department copy of plans may be noted to reflect changes.

Importance:

- Approval and permit issuance of all phased approvals and deferred submittals are at the discretion of the Storey County Fire Marshal.
- All construction documents, revisions, as-builts and/or plan submittals shall be submitted to Storey County Fire through plans@storeycounty.org in accordance with our current adopted fire codes and the current plan submittal process.
- Revisions shall be submitted as a new project and a new permit issued if the changes are significant, square footage is added and/or the valuation increases. Final determination of requirements of submittal will be made by the Fire Marshal.

In case of a project being denied, the Fire Marshal or one of our Fire Inspectors will contact you via letter and e-mail to notify you and detail the reason(s) for the denial.

If a project submitted is DENIED, a full resubmittal will be required.

Including:

- A new and updated permit application (with a verified valuation)
- And a full, complete set of plans.

(For example, do not only submit the one sheet that needed to be edited)

Storey County Fire does not keep any information, application or plans on denied projects. Once denied, the project is taken out of the plan review queue.

The plan review timeframe will restart at the time of resubmittal.

Storey County Fire Protection District Alternate Means and Methods Protection Forms (AM&M)

Storey County Fire Protection District understands that every building and project is different. With new technologies and processes coming out every day, buildings are evolving to meet these needs. Just because a building itself may meet the code requirements for extra or heightened protection, does not mean what is happening within the building meets or needs the same requirements. To help navigate these needs on a situational basis, SCFPD allows the application for an Alternate Means of Protection request, in compliance with Section **104.9** of the 2018 International Fire Code:

104.9 Alternative materials, design and methods of construction and equipment. The provisions of this code are not intended to prevent the installation of any material or to prohibit any design or method of construction not specifically prescribed by this code, provided that any such alternative has been *approved*. An alternative material, design or method of construction shall be approved where the *fire code official* finds that the proposed design is satisfactory and complies with the intent of the provisions of this code, and the material method or work offered is, for the purpose intended, not less than the equivalent of that prescribed in this code in quality, strength, effectiveness, *fire resistance*, durability and safety. Where the alternative material, design or method of construction is not approved, the *fire code official* shall respond in writing, stating the reasons why the alternative was not approved.

To apply for an AM&M request, please fill out the SCFPD AM&M request form attached in this guideline and submit it to us by following the same process you would for plans submittals, as outlined in the Storey County Fire Permit Application section using the plans submittal e-mail, plans@storeycounty.org.

Storey County Fire Inspections & Process

To schedule an inspection please call our main office (775) 847-0954 ext. #2

When calling in an inspection please have the following information prepared:

- Contractor
- On-site Contact: Name & Phone Number
- Physical Address for Inspection
- Permit #
- Inspection Type
- Requested Inspection Date & Time

The permit and approved stamped set of plans MUST be on site.

Please be sure permit is still current and not expired prior to calling in an inspection.

Storey County Fire Protection District Inspection Guideline

This list is intended to be a helpful guide for required inspections by the Storey County Fire Protection District. From breaking ground to the final Certificate of Occupancy. Please note that this is not intended to be a mandatory checklist or to set an order of inspections. We know that each job will come with its own unique requirements and schedules of construction. As you move forward through the construction process, please feel free to reach out to us at any time with any questions. We are also happy to set up a meeting or on-site walk, to ensure that all the required inspections are completed.

- ☐ Blasting
- ☐ Underground fire line thrust blocking (pre and post pour)
- ☐ Underground fire line hydrostatic testing
- ☐ Underground fire line flushing (fire line main, fire hydrants, risers)
- ☐ Temporary standpipes (if required)
- ☐ Fire suppression system rough-in
- ☐ Fire suppression system hydrostatic testing
- ☐ Fire suppression system final
- ☐ Fire suppression system tenant improvement
- ☐ Fire alarm system rough-in
- ☐ Fire alarm system final
- ☐ Fire alarm system tenant improvement
- ☐ New building final for Certificate of Occupancy
- ☐ Tenant improvement final for Certificate of Occupancy
- ☐ Any progress inspections needed during construction

For a Certificate of Occupancy to be granted, all fire alarm and fire suppression final inspections must be completed.

This list of inspections is for the construction process only. For a tenant or owner to begin any operations or conduct business, other fire inspections may be required.

If you have any questions or need assistance with the process, please feel free to contact Storey County Fire Marshal at (775) 847-0954 ext. 5

Hazardous Materials

Hazardous materials use, storage or display must be permitted through the Nevada State Fire Marshal's Office. This process can be found here:

<http://fire.nv.gov/bureaus/FPL/Hazmat/>

This permit must be onsite and always displayed. Business license, plan reviews and permits from Storey County will not be issued if you are required to have such and it is not on site. This document will be copied and placed in your permanent property file maintained with Community Development.

If you have questions, please contact the Nevada State Fire Marshal's Office directly at (775) 684-7500 or website at <http://fire.nv.gov>. They have standard business hours of Monday thru Friday from 0800-1700 and are closed for all Federal and State Holidays.

Existing Buildings and Structures

Buildings and structures which require a license to conduct business in Storey County shall provide plans for tenant improvements to the Storey County Community Development Department. See Tab #16 on how to submit electronically through Nevada Blue/ReproMax. Fees shall be based upon the valuation of the building changes as described in Tab #6. Plan reviews and permit must be issued prior to any tenant improvements are conducted.

When a commercial structure changes hands or a tenant improvement is done, all the most current codes as adopted must be adhered too. Most commonly found, buildings that are three (3) stories (includes basements) or 5,000 square feet in size (measured from outside of footings), must have fire sprinklers and fire alarms installed – regardless of occupancy load or type.

All changes to existing businesses, such as remodels, tenant improvements, repairs, improvements, alteration and changes in floor display layout must adhere to this process of plan review and construction permit(s).

Renewing Expired Storey County Fire Permits

Applicants are responsible for keeping record of their permits and expiration dates on permits. If you need a permit renewal please contact our main office at

(775) 847-0954 ext. #2

Please have the address & permit number ready when calling,
as well as the status of the permitted work.
